The Obio and Indiana Torpedo Compa ny's Barn Damaged This Morning

A few minutes after 10 o'clock this A few minutes after 10 o'clock this morning fire was discovered in the hay mow of the two-story brick barn owned by T W Dobbins and located at the corner of the after running from the southwest corner of the square to Elizabeth street and the morning square to Elizabeth street and the alley extending from Market streets. The fire department spent over two hours at the blaze. The fire is supposed to have started from a spark dropped from a cigar or pipe used by one of the employes who had been up in the mow for some lumber, preparations being in progress for taking a load of glycerine out into the oil all of which were taken out. The fire originated in the rear part of the mow The mow probably contained about five tons of hay which, together with the other feed in stock, was souked with water, and much more damage was done by the latter than by the fire Mr Dobbins estimates his damage at \$500, fully

covered by insurance

The Ohio and Indiana Torpedo company use the front part of the barn for making their shells, keeping their tins, etc., none of which was much damaged, and their loss is very

one of the wagons was run out into the public square but people gave it a wide berth, as some one started the report that it was loaded with the explosive, but such was not the case as none of the stuff is kept at the cutshed stone when placed between the crossings is turned out.

SATURDAY NIGHT FIRE

About 11 o'clock Saturday night the central hre department was called out on account of a fire located in Clippinger's meat shop which occupied a small frame building adjoining Del Hunters residence, at 207 south Rewards the Fire Department Boys

originated from a defective fine, had gained considerable headway when it was discovered, and before the flames were extinguished the roof of Hunt meat market, and also the root of a dwelling owned by Richard Moss, on the south side, were ignited and slightly damaged. Mrs. Mande Ballington Booth, that beautiful as well as good woman, is going to bring the force of the Salvation Army to bear on the saving of police men's sonis. She thinks they have had enough kicks and jeers and scolding, and now by kindness and aweet persua-

nion she hepen to reform them and bring them into the kingdom. Naturally enough, Mrs. Booth begins her work in New York city. If the Salvation Army

can save the policemen of New York, what can it not savo? The gentle, elequent enthusiast tells us that five bluecoats have already been 'saved.'' One of them indeed as soon

as he is off duty slips out of his municipal blue into the blue of the Salvation Army and sings and shouts and prays it with the best of them. But neither they nor anybody else dare tell their names. It is a comment on this Christian country, if it is a Christian country, that a police afficer who has been converted does not dare let anybody know it for fear he would be guyed out of his senses.

All good people must pray that Mrs. Booth's efforts will be successful. Think for one memous what a change would be wrought in a city that had policemen who were honest, especially a city quicks your nerves! It is like trying to that had policomen who always told the "drown" your sorrows in the flowing truth and who never took a bribe to let an evildoer escape, who never sponged on the street car companies or the beer saloons along their beat. Think of po-licemen who took a really humane and with opints, narcotic or nerve comkindly interest in the poor, the enterst and the bad who came into their hands. Think, but no-it is too good to be realized. Mrs. Booth has only converted five out of the 3,000 policomen of New

York city thus far.

Let the Black Man Stop Whining. One negro, at any rate, the editor of The Age, sees that all his race have to do now is to go in and win. The law has done all it can for them, philanthropy has done more for them than for almost anybody else, yet still they complain that they are kept down When they show they are capable of accamulating money, they will be respected as much as any citizen. Ordiners of Jackson township, was burnarily a man in our time is gauged by the money he has henorably accumulated. If the negro will not or cannot acquire money, whose fault is it?

The fact is that The Age has parted company for good and all with the calamity howlers. We are opposed to the obtraint voice of complaint, which drowns the voice of complaint, which drowns the voice of such progress as we are making on the one hand and blocks the way of greater progress on the other. We devote so much time and energy to the work of complaining and waiting for somebody to do for us the things we should do for curselves that we have little left for anything olso. The man with a grievance always shunned as a ruisance. We complain of having a lot of grievances which only exist in our own heats. We complain of lack of opportunity to make money when we squander millions every year on humbug. Dollars count, but we do not hold on to the dollars; hence we are constantly passing the mentionant lat to support our own institutions and receiving a small check and a kick at the same time. We do not support our own enterprises, and then we complain because white men who receive our patronage refuse to give honorable receive our patronage refuse to give honorable mylogment to our giric and boys. We have more opportunity and advantage than we know what to do with. The fault is in ourselves and not in others. Let us stop howling and saw more wood.

The North Sea Canal.

The eyes of the world will be turned to Kiel, the northern port of Gormany, when the emperor goes there June 20 to open the great ship canal. The vessels of all mations will be there, including some from the American nay, and Emperor William will have the opportunity of his lifetime to exploit himself.

We may be assured he will not neglect it. The importance of this canal will be appreciated at a glamos by the reader who looks upon a map and sees that it makes an island out of the pennisula of Dommark. Formerly ships from the North sea to the Baltic sea were obliged to pass up around the northern coast of Denmark and through the dangerous and stormy Kattogat. The canal across the Prussian province of Sleswick-Holstein will shorten the distance several hundred miles and give a safe and comfortable passage. The mechanical power of Niagara falls is more than twice that of all the steam engines in America combined. A Canadian plant will furnish power by electricity on that side of the river. The future greatness of this plan to transmit power by electricity from Niagara can hardly be computed. The intention is to send it even as far as New York city. Wherever this strong electric current can go it will abolish steam and coal and ashes. Buffalo, from being a black and sooty town, will brighten up and be as clean as Boston. A Clear Cut Argument.

The young woman who was recently denied admission to the New Jersey bar by the New Jersey courts-Miss Kilgore by name-is a most attractive young woman personally. She is tall, slender and her face is charming and interest-ing as well as bright and intellectual. Still even all these things failed to seture her the favor of the antediluvian Now Jursey judge. All in the court were notably impressed, however, by one point of her argument. It was as fol-lows: "You know it is the custom," she said, "for the New Jersey courts to permit lawyors from other states to come here and practice. PILE A DEMURRER.

The Boone Company Claim Burnell Has No Remedy at Law.

Another Chapter in the Credit Register System Case Begun in the United States Court. Several weeks ago the Times-Dux-

OCRAT contained an account of the commencement of a suit in the Fnited States Court, at Toledo, by A. S. Burnell, of lows, against the W. K. Boone company, of this city, for using a credit rating book, the form of which the plaintiff claimed to have copyrighted.

The outcome of the case is of great interest in this city, as no less than a hundred merchants are using the system of the Chown people, which Burnell claims is an infringement. At Toledo Saturday the Boon company filed a demurrer, of which

the Bee says:
A demorrer was filed in the United States court to-day in the case of A. S. Burrell against the W. K. Boone company, of Lima, O., to restrain the use of a copyright credit register system—something after the alleged patent on the safeguard system of hookkening. The demurrer avers of hookkeeping. The demurrer avers that plaintiff on the face of his own bill of complaint is not entitled to the relief petitioned for; that the bill

Is better than horseback exercise or carriage riding for several reasons.

1st. Your wheel cannot be frightened and run away. 2nd. It does not get sick, like its four-footed competitor.

3rd. It does not "eat its head off."

4th. It does not need a hired man to groom it.

5th. Last, but not least, it is a sure means of getting health.
